FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

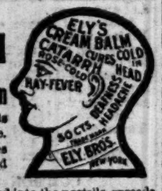
The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

Nasal CATARRH

In all its stages.

Ely's Cream Balm



cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made at the Dr. Shoop Laboratories, from this ingenious and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

Touching the Hem of His Garment.

A tall, grim clock tolled the hour of 1 yesterday afternoon in Dowie's death chamber in Shiloh House near Chicago and the doors were opened to one of the strangest throngs ever seen in Zion City. Scores of pilgrims—lame, halt, and blind—had come to touch the garment of the dead Elijah to be cured of their ills.

They came on crutches and in armchairs. Sick children were carried in the arms of their weeping mothers.

The word has gone forth that he who touches the gorgeous "ascension" robes of the "prophet" will be cured by a miracle. Those that wearily made their way to the glistening white coffin were the vanguard of a promised great pilgrimage to Zion by scores of invalid believers before his emaciated corpse is laid beneath the frozen earth of Lake Mount Cemetery.

Scores of pilgrims are arriving on every train.

The poor, sunken body of him who was once Zion's iron-willed autocrat was draped in the silk and satin robes which were made for him when he proclaimed himself "Elijah III." The hem of this garment is sought by all the sufferers. Some endeavored to kiss the glistening cloth, others were content to press it between their trembling fingers.

The sufferers, praying always, and occasionally giving vent to a murmured "Peace to Thee," gazed with adoration and hope at the cavernous face with its closed eyes, the venerable silky beard giving it the aspect of a Biblical patriarch.

The procession continued until three o'clock, when the doors were closed. Most of those who viewed the body were in tears. Many known supporters of Voliva were among the mourners.

Piles of people have Piles. Why suffer from piles when you can use DeWitt's Carbolized Witch Hazel Salve and get relief. Nothing else so good. Beware of imitations. See that the name is stamped on each box. Sold by W. F. Creighton & Co., 401 King street.

Attempted Murder and Suicide.

Irving T. Peckham, aged thirty-two, a wealthy horseman of Auburn, R. I., fired two shots into his father's head late yesterday afternoon, at the same time remarking, "If mother were home, I would shoot her, too." Peckham then went into his own room, on the second floor, and, standing before a mirror, placed the revolver in his mouth and fired. He died instantly. The father, Samuel Peckham, fifty-eight years of age, is in the Rhode Island Hospital, with a chance of recovery. Mrs. Peckham, mother of the suicide, was down town shopping, and collapsed when she got her first news of the tragedy from a newspaper bulletin board.

Peckham, sr., is a retired mill superintendent, and father and son had been closely associated for several years as superintendent and assistant superintendent, respectively, of the Colchist yarn mills of the Glenark Worsted Company, at Woonsocket. Several months ago the mill closed and within a few weeks it was sold. Although by no means in financial straits, young Peckham brooded over his enforced idleness, and his act yesterday is believed to be due to temporary insanity.

Peckham was fond of horses, and always owned one or more fast ones. He was a prominent figure on the speedway and at the matinee races at Narragansett Park.

Mrs. Sage's Munificence.

Mrs. Russell Sage, through her counsel, Henry W. DeForest, has authorized the following statement in relation to the Sage foundation, a bill incorporating which has been introduced in the legislature of New York.

"I have set aside $10,000,000 for the endowment of this foundation. Its object is the improvement of social and living conditions in the United States. It will be within the scope of such a foundation to investigate and study the causes of adverse social conditions, including ignorance, poverty and vice; to suggest how these conditions can be remedied or ameliorated, and to put in operation any appropriate means to that end.

"While having its headquarters in New York city, where Mr. Sage and I have lived, and where social problems are most pressing and complicated—partly by reason of its extent and partly because it is the port of entry for about a million immigrants a year—the foundation will be national in its scope and in its activities.

"I have sought to select as my trustees men and women who are familiar with social problems, and who can bring to their solution not only zeal and interest, but experience and judgment."

Does Coffee disagree with you? Probably it does! Then try Dr. Shoop's Health Coffee. "Health Coffee" is a clever combination of parched cereals and nuts. Not a grain of real Coffee, remember, in Dr. Shoop's Health Coffee, yet its flavor and taste matches closely old Java and Mocha Coffee. If your stomach, heart, or kidneys can't stand Coffee drinking, try Health Coffee. It is wholesome, nourishing, and satisfying. It's nice even for the youngest child. Sold by E. S. Leadbeater & Sons, druggists.

Editor Assaulted.

Col. John Temple Graves, editor of the Atlanta Georgian, was assaulted on the street in Atlanta yesterday, being struck from behind without warning by J. H. Crutchfield. Colonel Graves was knocked to the pavement and stunned for a few minutes. Crutchfield used his fist in the attack. A friend of Colonel Graves immediately attacked Crutchfield, who got away, but was arrested an hour later. Crutchfield was recently acquitted of a charge of assault with intent to murder his wife, who lost a leg as a result of his shooting her. He asserted that the shooting was accidental. He complained that certain statements published in the Georgian were false and unjust to him and that when he demanded retraction he got no satisfaction.

SIC SEMPER TYRANNIS

WEDNESDAY EVENING, MAR. 13, 1907.

THE BOSTON TRANSCRIPT a few days ago contained the following:

The sale of the Philippines is the issue in the democratic canvass for nomination in the Eighth Viginia district, where a special election is to be held to fill the vacancy caused by the death of Representative Rixey. Judge Charles E. Nicol, who aspires to the nomination has made the sale of the islands the main plank of his platform. He would put them on the bargain counter, he is so anxious to have us get rid of them. * * * Judge Nicol characterizes the Phillippines as a gold brick and he proposes that we work off that gold brick on somebody else.

It is unnecessary to say to the people of this district that there is no "main plank" in the platforms of the candidates now seeking Congressional honors. It is merely a matter in which the large majority of democratic voters will be called upon to select a candidate from a number of aspirants either of whom would fill the position with credit to himself and to his constituents. Of course, he will be a true democrat, and as such will protest against many things now being carried on by the present administration. The Philippines, the white elephant the country has been carrying during the past nine years, is but one of a number of burdens which are onerous to all conservative people, democrats and republicans alike. So far as national affairs are concerned, the representative, whoever he may be, will undoubtedly cast his votes upon democratic lines, but his first aim should be to advance the interests of the district he represents, especially of Alexandria, the only city in the district. For this reason people in this city in casting their votes will naturally weigh the claims of the candidates seeking their support. The late John F. Rixey worked assiduously for Alexandria, and accomplished much in her interests during the ten years he was Congressman.

FOR THE first time since the American occupation of the Philippine Islands national elections will be held throughout the archipelago on July 30, 1907 for members of the Philippine Assembly, the representative governing body which was created by an act of Congress approved July 1, 1902. The Bureau of Insular Affairs of the War Department today received a copy of the election law recently enacted by the Philippine Commission under which the national elections will be held. The act provides for the general provisions of what is known as the Australian ballot system. If these elections are held under United States federal supervision with marshals at the polls, as was done in Cuba, then the same trouble may be expected as resulted from the Cuban elections.

AS A result of the recent conferences at the White House on the immigration question, the Southern States will be permitted to "advertise" for immigration to their States under their present methods and under the present rulings of the Department of Commerce and Labor, until July 1. That is the date when the new immigration law goes into effect and at that time, the matter it is said, will again be taken up by the Attorney-General for the intrepretation of the doubtful clauses, referring to the extent a State may induce immigration. But Attorney-General Bonaparte has already decided against the States in this matter.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, March 13.

The President today received a visit from Rev. Drs. A. P. Atterbury, Walter Laidlow and Donald Sage Mackay, of New York city, who came as the representatives of the Federation of Churches to secure his aid in the work the organization is doing. According to the President's visitors there is a marked decrease in church attendance among the working classes living in New York. Within the last six years three Protestant churches have been abandoned, although the population of the city has increased by many thousands. In the same length of time the Catholic churches have increased by six and the Jewish synagogues eighteen. But all denominations, Protestant, Catholic and Jew alike, the President was assured, are anxious to stem the tide of religious indifference that seems to be spreading over the metropolis. The President said he was in hearty accord with the principles and efforts of the federation.

What has every appearance of being a special meeting of the Cabinet is being held at the White House this afternoon. Owing to the recent visit of J. Pierpoint Morgan, relative to harmonizing the policies of the trunk lines with those of the administration, there is an impression that railroad matters are being considered. The meeting lasted half an hour. When the members left they declared that there was "nothing to say." The President also declined to discuss the matter. It is understood that the flurry in Wall street caused the conference.

It is stated at Police Headquarters that even before the death of Police Captain Francis F. McCathran, who died at his residence at 2 o'clock this morning, any number of applications were filed with Major Sylvester by persons who wanted to succeed him. Sylvester says he had already determined upon a successor, which will be announced today and that no other applications will be received.

The physicians who are attending Archie Roosevelt report that the improvement that began last Thursday, after the serious relapse which caused them so much alarm, continues, and they expect that all traces of the diphtheric germs will have disappeared by Friday. That day will mark the end of the second week since the diphtheria was first discovered. After the quarantine is removed from the White House, Archie will probably be sent away to the country.

Lieut. Thompson, of the 26th Infantry, continued today as a witness before the Senate committee on military affairs conducting the investigation of the affray at Brownsville, Texas. He said, in his opinion that police were particularly hostile toward soldiers. Senator Foraker is trying to prove that citizens of Brownville dressed in army uniforms, shot-up the town.

An important battle is impending between the Nicaraguan and Honduran forces, according to information that has reached the State Department. Upon the result may depend the entire issue of the conflict. Up to the present time it is declared that the numerous encounters of the rival forces have been small affairs.

THE DISASTER TO THE JENA.

The terrible fate of the French battleship Jena at Toulon yesterday is now said to have been caused by the explosion of a torpedo, which set fire to the magazines.

Captain Adigard Captain Vertier and from 70 to 80 sailors were killed, while Rear-Admiral Manceron and hundreds of others were injured.

Captain Vertier,, chief of staff of the Mediterranean squadron, was imprisoned in his cabin and died a horrible death.

The explosion on the Jena is the seventh disaster in the French navy since January 1. Eighty persons were killed, hundreds hurt.

The submarine boat Algerian sank at Cherbourg, January 11. No lives were lost.

Battleship Brennus went ashore in storm near Hyers, February 2, but got off.

Explosion on torpedo boat at Lorient, February 8. Engineer and eight stokers burned to death.

Cruiser Jean Bart, after a mutiny on board had been suppressed January 9, went ashore coast of Africa February 19. Crew saved; ship total loss.

Explosion in boiler-room on torpedo boat destroyer Kabyle off Toulon, February 26. Three men scalded to death; six injured.

Submarine boat Gymnote struck rock off Toulon, stove in plates. No loss of life.

October 16, 1906, submarine boat Lutin lost, with crew of 16.

Accident to F. F. V. Train.

The F. F. V. train, known as No. 3 of the Chesapeake and Ohio Railroad, which leaves Washington at 11:10 p. m. over the Chesapeake and Ohio, was wrecked yesterday morning about 9 o'clock at a point five miles east of Hinton, W. Va. The engine struck a slide and left the track. Engineer John W. Flannagan and Fireman Michael Quinn were fatally injured and both died soon after the accident. The train was running at a slow rate of speed and this accounts for the fact that no one else was injured.

The engine, two express cars, and postal car were derailed, and badly damaged and the forward part of the combination car left the track. The road at that point is double tracked and the engine tore up both tracks for a distance of one hundred yards, and then turned over across the two tracks. Engineer Flannagan stuck to his post and was caught under the reverse bar and scalded so badly that he died in a few hours. Fireman Quinn was also fatally scalded and only survived Flannagan a few hours.

The slide occurred just at the end of Little Bend tunnel and at a place which has heretofore been considered safe. The debris came down immediately in front of the train. The track-walker was within fifteen feet of where the slide down was, but had not time to flag the oncoming train.

At 3:20 o'clock yesterday morning, Chesapeake and Ohio Freight Conductor J. B. Lutz stopped his train near Sewell on the bridge crossing New River. While standing there a following train ran into the caboose, instantly killing Conductor Lutz and causing serious injury to Rear Brakeman Hugh Ratcliffe. The approaching train was seen by Lutz and Radcliffe, and the latter jumped and landed in the river, fifty feet below.

Fire in Newport News.

"Bar Harbor," for years the disreputable section of Newport News, and notorious throughout the State for crime and bloodshed before the reform movement set in, was the scene of a disastrous fire last night.

At midnight the new Warwick Hotel annex, on Twenty-fourth street; Barton's Theater, and four buildings on Twenty-third street had been practically consumed, and the flames were sweeping eastward to Washington avenue, the principal business thoroughfare. One whole side of Twenty-third street was virtually wiped out, most of the buildings being frame and old, and the sparks being carried over the city by high winds threatened danger momentarily to other sections.

The fire started in Barton's Theater. The large Warwick Hotel annex directly in the rear of it on Twenty-fourth street is one of the new hotels built especially for Jamestown Exposition accommodations. The headquarters of the Salvation Army was one of the buildings destroyed.

Buried in an Avalanche.

New York, March 18.—Only for the heroic work of their fellow-laborers, who immediately began the work of digging out 40 men who were buried in an avalanche in the Pennsylvania tunnel today, several workmen would have been dead. As it was only one Italian was killed and ten others seriously injured. The land slide followed a blast which had just been touched off and the laborers were digging away the debris.

C. C. Woodruff, 45 years old, a well-known railroad man, dropped dead at the Amherst end of the Ninth street bridge, Lynchburg, yesterday afternoon, from heart disease.

News of the Day.

It is reported that the railroad magnates are disposed to support Mr. Roosevelt's plan to centralize the control of the railroads in the federal government, as a protection from State legislation.

A girl, believed to be Gertrude Harnish, a stenographer, either fell or jumped from a window of the thirteenth floor of the Traction Building in Cincinnati early today. She was taken to a hospital in a dying condition.

A huge icicle dropped from the cliffs of the Niagara gorge on a trolley car of the Gorge Road as it was passing the whirlpool rapids yesterday. The motorman was killed and three passengers were struck on the back and badly bruised.

Fire today partially destroyed the wall paper factory of Janeway and Caprenter in New Brunswick, N. J., and burned $100,000 worth of designs. The loss to the building will be heavy. The firm has branches in Philadelphia, Chicago, and employ 600 hands, many of whom will be thrown out of work.

The President yesterday signed an order restoring to the public domain nearly 30,000,000 acres of land withdrawn from entry under former orders. It is estimated that the original withdrawals amounted to about 64,000,000 acres, so the restorations ordered yesterday amount nearly one-half of the whole area.

Mme. Anna Gould, rid of her French count, now has a bill of $175,000 to settle. This is the charge made by Edmond Kelley, a former New Yorker, now a Parisian advocate, for securing for the countess a divorce from her former husband, the Count Boni de Castellane. The countess turned the bill over to her brother, George J. Gould, who is trustee of her estate, and the latter declared, in forcible English, that he wont pay any such excessive sum.

President James J. Hill, of the Great Northern Railway Company, stated in unqalified terms before the Sundberg legislative committee in Minneapolis yesterday that he would be glad to have the United States government take over his line. He stated further that if the government should go into the railroad business it would be nothing short of a lottery, and that the country would, as a matter of fact, have an "elephant" on its hands. "Then," said he, "the government would be obliged to engage in another lottery to get rid of the elephant."

After a search in various cities of the country, Mrs. Joseph H. Scovell, the young wife of a well-known young man of Washington, was found yesterday in Atlanta by her husband and two city detectives. Mrs. Scovell, who is said to be prominently connected in Philadelphia, is reported to have come to Atlanta with Warren Tucker, formerly a star member of the Al. G. Field minstrel aggregaton. When the woman saw her husband she fainted. After being revived she agreed to return to Washington with her husband. Scovell, it is said, declared his intention of taking his wife back to her people.

Stuyvesant Fish, who was deposed by E. H. Harriman from the presidency of the Illinois Central, was chosen yesterday to be a director of the Missouri Pacific Railroad, one of the keenest competitors of the Union Pacific and Southern Pacific. His election is to be followed by his appointment to the executive committee, and it is the understanding between Mr. Fish and George J. Gould, the president of the company, that Mr. Fish is to take an active part in the affairs of the road. Naturally, the first inference from the announcement was that Mr. Fish's association with Mr. Gould meant even greater hostility between the Gould and Harriman systems in the railroad business west of the Mississippi.

Virginia News.

A marriage license were issued in Washington yesterday to Linton Ashby, of Bluemont, and Vada Kuhn, of Falls Church.

Fire destroyed the packing and canning factory at Urbanna belonging to L. B. Wagenen on Sunday night. The loss is estimated at about $4,000.

William Alsop, aged eighty years, died Monday night at his home, in Spottsylvania county, of dropsy. He was a Confederate veteran, having served in Company A, Thirtieth Virginia Infantry.

Cyrus F. Leidig, aged fifty-four, a Frederick county farmer and cattle breeder, died yesterday at his home, near Winchester, after an illness of less than a week. He was a native of Franklin county, Pa.

It now seems assured that the proposed new post-office building in Richmond will stand on the site occupied by the present building, and it is very possible that the entire block between Tenth and Eleventh street, on Main, and from Main to Bank street, may be taken up in the proposed improvement.

The Richmond board of aldermen last night passed a resolution appropriating $5,000 for a monument to the memory of Edgar Allen Poe, to be erected in that city, with the understanding that the monument association, of which Col. Joseph E. Willard is chairman, shall raise a similar sum for the same purpose on the outside.

Edward E. Mahoney, of Herndon, Fairfax county, was sentenced in Newport News, yesterday, to three years in the penitentiary for bigamy. The prisoner threw himself upon the mercy of the court, admitting his guilt. His case establishes a record probably in the State for indictment, trial, and sentence, the whole occupying about an hour.

It is reported in Richmond that State Librarian Kennedy is about to be proceeded against legally by W. E. Nichlos, who, representing his aunt, sold to the librarian the Latrobe manuscript. Nichols claims that he sold the papers to the State Library to be deposited and kept in the library. He further claims that his receipt for the money was made out to Kennedy, not as an individual, but as State librarian. The papers are at present in the possession of Mr. Joseph Bryan, to whom Kennedy sold them for $75, it is said, pocketing a profit of $60. Nichols says that the question is now one of veracity between himself and the librarian, and that he is forced to take legal steps for his own protection.

The Thaw Trial.

New York, March 13.—Abe Hummel was called as first witness in the Thaw trial when court opened this morning. Hummel is the man in whose office Evelyn is said to have made an affidavit as to cruelties practiced on her by Thaw during the European trip. In reply to questions by Jerome Hummel stated that Evelyn was in his office Oct 27, 1903.

"Did you dictate to your stenographer in her presence?" asked Jerome.

Delmas was objection when James Olinch Smith arrived in the court room. Hummel was excused from the stand temporarily and Smith took his place

Smith was unable to produce Jerome's cablegram calling him home to testify. He explained he had left it in Europe although he thought yesterday that he had it. He said there was no copy of the cable. Smith repeated the cable as he remembered it. "Your evidence most important; your presence desired."

Delmas made Smith admit he had made a written statement to his lawyer, Frank M. Blackwell, before he went abroad last December, covering all the facts to which he testified.

Smith testified further that he arrived in New York February 17 and visited the district attorney's office February 19.

Delmas excused the witness.

Hummel clambered into the witness chair again and Jerome renewed his fight to get in Evelyn's affidavit.

The district attorney repeated the question: "While Evelyn Nesbit was in your office, did you dictate something to your stenographer?"

Delmas objected but was overruled and Hummel replied:

"Yes, sir."

After careful consideration Jerome then asked:

"At that conversation you had with Evelyn Nesbit in your office on October 27, 1903, did she tell you in substance that Thaw wanted to injure Stanford White and get him in the penitentiary, and that Thaw had been to her many times to get her to swear to written documents involving White and charging White with having drugged and betrayed her when she was fifteen years old, and that she told Thaw that the things were not true and that Thaw beat her because she would not sign the papers?"

Delmas immediately interposed with an objection.

Delmas, in order to shut out this evidence, tried to show that the relations of counsel and client existed between Hummel and Evelyn, but failed, as Hummel denied this. Delmas pressed hard on the point, being allowed to cross examine Hummel on the point. He tried to make Hummel confirm the declaration made by Evelyn that White had told her that "Hummel squeezed $1,000 out of him" in regard to the affidavit.

A legal battle followed between Jerome and Delmas, the latter using every means to keep out such testimony.

Jerome launched into an eloquent plea for the admission of Hummel's testimony and the famous affidavit.

The trial at 12:23 was adjourned until tomorrow at the request of Jerome who wished more time to frame his hypothetical question. Hummel was on the stand when court adjourned.

The Disaster of the Battleship Jena.

Toulon, March 13 —After an investigation today, marine officers state that the French battleship Jena, which was made a great death trap yesterday, will probably be a total loss.

No accurate figures can yet be given of the number killed. Eighty-two bodies have been identified, and fragments of many more have been gathered up from along the water front.

There seems little doubt but that many of the wounded and dead were blown into the harbor and sank, while it is certain that several men, fleeing in terror from the explosion, jumped into the water and were drowned.

The Jena carried a crew of 21 officers and 685 men, and the fact that many of these were unaccounted for following the explosion yesterday, gave rise to the report that the dead would reach 400. Later developments, however, showed that many of the men were enjoying shore leave and it was to this fact alone that they owed their lives. At noon today it seemed certain that the list of dead would at least total a hundred with every probability of its exceeding this number.

The fires which raged for hours yesterday in the hulk of the Jena have been extinguished and the search for the dead is being pushed today.

That the disaster worked from exploding magazines was not even greater is today attributed to the marksmanship of the gunners of the battleship Patrie, moored opposite the dry dock in which the Jena lay. Following the explosion, efforts to flood the dry dock failed as the gates jammed. A well directed shell, fired from the Patrie, smashed the gates and flooded the dock and incidentally the interior of the badly rent ship, just in time to prevent the explosion of the central and forward magazines, in which were stored the powerful torpedoes. Had these torpedoes been exploded, simultaneously, it is believed the entire arsenal and every building within a radius of several hundred feet of the battleship would have been razed.

The Kidnapped Boy.

Jersey City, March 18 —Edward Duddy, 19 years old, of 1881-2 Morgan street, this city, this morning notified the Jersey City Evening Journal that he saw Horace Marvin, jr., the four year old boy kidnapped at Dover, Del., in charge of a woman this morning at the trolley station near the Pennsylvania Railroad terminal. Duddy had a copy of a newspapers containing a picture of the boy, and a description. He says the little boy was crying and the woman got aboard a Greenville car before he could notify the police. Pennsylvania Railroad detectives and the police are on the trial of the woman, who arrived on a Pennsylvania railroad train about 11 o'clock. Being without car fare, Duddy was unable to trial the woman. He ran to the Evening Journal office, and, pointing to the newspaper photograph and description, declared that the woman had the missing child. He gave a description, of the alleged kidnappor to the Publishers Press representative.

Trick Played on the Pope.

Rome, March 13.—A rigid investigation has been started by the Vatican authorities to determine who is responsible for a trick played upon Pope Pius X., whereby he was forced to listen to the playing of the "Marseillaise" by a gramophone, recently presented to him by American friends, when he expected to hear "Cavalliera Rusticani." The gramophone is an innovation at the Vatican. Since its arrival it has been played regularly while the Pope has been taking his meals. At dinner time yesterday after the Pope had listened to Gounod's Ave Maria, he requested Bressan his secretary, for a change, Bressan inserted a disc marked "Cavalleria Rusticani," but the machine began grinding out "The Marseillaise." Pius was startled and indignantly ordered the withdrawal of the disc. Bressan tremblingly stammered his apologies. His face so clearly showed his woe that the Pope broke into a laugh and said:

"Of course, you are not to blame. This thing seems inexplicable, for my dearly beloved American Catholics are too devoted to me to play such a trick on me."

Electrical Storm in Baltimore.

Baltimore, March 13.—A severe electrical storm broke over this city early this morning which caused slumbering Baltimore and to wake up and take notice. The storm began at 3 o'clock and was accompanied by torrents of rain. The lightning which was very vivid, and when lit up the heavens at intervals of a few seconds, was followed by terrific claps and rumblings of thunder and lasted for fully 45 minutes For intensity the electrical display could hardly be surpassed by a similar occurrence in midsummer. The rainfall was very heavy. So far as known, no serious damage was done.

New York Stock Market.

New York, March 11.—An enormous flood of stock was thrown on the market during the first hour, causing sharp declines all around the room and forcing prices of several issues to the lowest points reached on the downward movement in progress since the beginning of the year. The incentive was the news of financial disturbance in London and Berlin, coupled with the time money position in this city. The sales so far are estimated at 40 000 shares.

City Council.

There was a two-and-a-half hour session of the City Council last night. Considerable business was transacted, most of which, however, was of a routine nature. An ordinance granting the electric railway company the privilege of extending their track westward on Cameron street from West street was passed by the Common Council, but it was laid over in the Board of Aldermen under the present law.

BOARD OF ALDERMEN.

Five Aldermen were present, and the business before the board was transacted without discussion.

Mr. Simpson introduced an ordinance providing for leasing with the privilege of buying certain property at the outlet of the old Alexandria Canal to certain parties who propose to establish a manufactory at that place. The ordinance was adopted.

There was subsequently some informal interchange of opinion concerning the powers of the committee on light in reference to the present manner of lighting the city, Messrs. Simpson and Hill maintaining that under the law the matter was undoubtedly within the authority of the committee on light.

Mr. Hill stated that he would at a subsequent meeting introduce a resolution making it obligatory upon the members of the police force to report the fact when lights at certain points were not burning; also the condition of poles and other appliances.

A report of the joint committees on public property and finance appropriating $4,800 for improvements at the Corporation Court House was laid over, and it was determined to hold another meeting next Thursday night for the purpose of acting on the same as well as on the ordinance concerning the extension of the electric railway tracks.

The Aldermen concurred in the action of the Common Council on all papers sent in.

On motion of Mr. Hill the Aldermen proceeded to an election to fill the vacany occasioned by the death of N. P. T. Burke. He nominated Mr. Jacob Brill, and spoke in favor of his election.

Mr. Simpson also spoke in commendatory terms concerning Mr. Brill's fitness for the position, and a vote having been taken he was elected by a unanimous vote.

Later an attempt was made to locate the newly-elected member in order that he could be sworn in and the laid over papers acted upon, but he could not be found.

The board subsequently adjourned.

COMMON COUNCIL.

The board met at 7:40.

The committee on light submitted without report a petition for the erection of an electric light at the corner of Washington and Cameron streets.

Mr. Strauss favored the erection of the lamp.

Mr. Uhler said a lamp at that point was no more needed than at other places and the light committee thought that such matters had been taken from their hands.

The Chair stated that it was the plain duty of the committee to make a report on such matters; if all the committees refused to make reports on matters referred to them and should the Chair decline to rule on questions presented all would be in chaos. He said that Council should remember that hereafter every new light erected would cost the city $75.

Mr. Williams, reading from the report of the light committee, said that the two gas lights on the corner cost much more than would one arc light.

The Chair asked Mr. Williams if he really believed that the gas lamps cost as much as set forth in the report and Mr. Williams admitted that he did not.

Mr. Uhler stated that the gas lights did not cost as much as the report made it appear; that it was merely a matter of bookkeeping.

Mr. Spinks favored the erection of the lamp; he said that part of the city should be well lighted as the people living in that neighborhood paid more taxes than those living in other parts of the city.

After a long debate Mr. Moore moved that the matter be recommitted to the committee on light for a report and after other members had spoken on the subject the motion prevailed, 11 to 5.

The light committee returned without reports the applications for other lights and all these were recommitted without debate.

Mayor Paff's letter concerning a bill of the National Pinkerton Detective Agency for $378 for services rendered in the Curtin murder case was received but no action was taken as the finance committee had not reported on the matter.

A bill of the Alexandria Electric Company for $192.12 for eighty-five arc lights, from Febrbary 18 until March 1, after debate was referred to the committee on finance and light. After the reference, Mr. Hellmuth complained that some of the street lights do not burn all night, and a discussion followed in regard to the committee that should look after the electric lighting. Mr. Uhler insisted that the committee on streets and the city engineer had authority over the lights and the Chair insisted that such matters were clearly in the hands of the committee on light and read from the rules to sustain his point.

Mr. Spinks then spoke of the electric works and said some one should have authority over them.

Mr. Leadbeater explained that the committee on streets had only been designated to look after the placing of poles and the stringing of wires on the streets and said that an expert had been employed to aid his committee.

Mr. Spinks again started to discuss the electric light question, and the Chair ruled that such a discussion was out of order. He said he had given the debate much latitude but really there was nothing now before the board. Mr. Spinks appealed from the ruling, but the chair was sustained. The Chair expressed regret at having to take any member from the floor but said he was only governed by the rules of Council.

An ordinance providing for the sale of the franchise wanted by Dr. A. Luria, of Chicago, president of a company that manufactures a patent bed for hospitals, was read, debated, and after being slightly amended was adopted. The company agrees to expend $25,000 on a factory and to employ not less than fifty persons. The franchise embraces two and one-half squares of land north of the old canal basin, at a nominal rental. Mr. Uhler thought it unnecessary to give the company all the city property from the river to Pitt street and some members thought the matter should go over, but after an explanation by Mr. Marshall the ordinance was passed.

The board adopted the favorable report of the committee on streets and general laws on the petition of the Washington, Alexandria and Mount Vernon Railway Company for permission to lay tracks on Cameron street west of Payne street, to connect with the King street track, thereby extending the double-track system of the line. The measure embodies a number of concessions and provides for the maintenance of a street car service from the ferry wharf to the approaches of the new union passenger station.

Mr. Evans opposed the granting of any more concessions to the electric road till that road reduced its rates; he said the charges were excessive, and were a discrimination against Alexandria.

Mr. Burke said the city's interest had been carefully looked after in the matter and believed the road under the ordinance would pay full price for the franchise.

Mr. Birrell also favored granting the franchise, saying the company would certainly, under the provisions of the ordinance, pay full value. After a hearty laugh, Mr. Evans voted for the ordinance which was passed unanimously.

Mr. Marshall submitted a report from the committees on finance and general laws recommending an appropriation of $4,800 to move the office of the clerk of the courts to the ground floor of the city hall and provide a fireproof record room.

Mr. Evans thought that the matter might go over till the next meeting as a large sum of money was involved and members might want to look further into the matter.

The Chair also hoped that the matter would go over to the next meeting. He had heard that there was a difference of opinion concerning the proposed change of the location of the clerk's office and that two sets of plans had been drawn; several matters should be considered before final action.

Mr. Marshall said that all these matters had been discussed by the committee which had made their report; as a rule committee reports were adopted and he then asked if the chair had purposely delayed the calling for this report.

The Chair indignantly resented any such insinuation.

After further debate a motion to postpone was lost and the report was adopted by a vote of 13 ayes.

Mr. Spinks then offered a resolution of inquiry as to the management of the electric works, and the Chair stated that Mr. Spinks then had the floor. Mr. Spinks then proceeded to discuss the light works whereupon a member moved to adjourn.

The Chair held that so long as a member had the floor an adjournment motion would not be entertained.

Mr. Spinks after stating that any member who wished to do so could leave the hall, continued his remarks for a short time.

Mr. Spinks' resolution with his assent, then went over.

A petition for a full month's pay for February was received from the former force of the old electric light plant and referred to the committee on light.

A petition from the Alexandria Free Kindergarten for an appropriation of $200 to assist in the work of the association was referred to the finance committee.

A petition, signed by M. T. Dywer and others for the construction of a sewer on south Washington street, between Wilkes and Franklin streets, was referred to the committee on streets.

A resolution appropriating $100 to lay flag stones at the intersection of Fairfax and Franklin streets and the intersection of Washington and Franklin streets was referred.

Messrs Hill, Marbury, Simpson, Curtin and W. H. Sweeney.

In the absence of the President Vice President Curtin presided.

The ordinance was read three times and passed by a vote of ayes 5, noes 0.

The Common Council returned the ordinance, having amended the same, and the amendment was concurred in.

Mr. Hill nominated Mr. Jacob Brill as a candidate to fill the vacancy caused by the death of Alderman N. P. T. Burke, of the First ward, and he was elected by the following vote; For Jacob Brill—Messrs. Hill, Marbury, Simpson, Curtin and W. H. Sweeney.

Numbers of Alexandria mechanics employed in Washington will be affected should the strike be declared.

Accused Dismissed.

Two men, who were arrested during the past few days on suspicion of robbing freight cars in the Potomac yards, north of this city, were given a hearing before Justice Isaac Burrell, of Alexandria county, yesterday afternoon. The Debt Question.

Argument of the demurrer of West Virginia in the case of Virginia against West Virginia, whereby the former is seeking a settlement of West Virginia's share of the ante-bellum debt of Virginia, was completed before the Supreme Court of the United States yesterday afternoon.

Attorney-General Anderson and Maj. Holmes Conrad, counsel for Virginia, completed their able argument of Virginia's contentions against the granting of the demurrer, and Hon. John G. Carlisle, closed the argument of West Virginia's side of the case.

Upon motion of Maj. Conrad, following a similar request by Attorney-General Anderson, the court granted Virginia's counsel the right to file a supplemental brief. The court agreed to allow Virginia five days in which to file this brief and also granted West Virginia five days after the expiration of Virginia's five days in which to file a supplemental brief for West Virginia if so desired.

With the exception of the filing of these supplemental briefs, the argument on the question of granting or denying the demurrer has been closed, and the court has taken it under advisement. In all probability the decision will not be announced before the adjournment of the court's present session.

White's Brother-in-law on Stand.

District Attorney Jerome yesterday dealt the hardest blow that he has yet administered to the "brainstorm" theory by which the defense has attempted to excuse the shooting of Stanford White by Harry K. Thaw. This the District Attorney accomplished by means of the testimony of James Clinch Smith, brother of Mrs. Stanford White, who testified that he was on the roof of Madison Square Garden the night of the shooting.

Smith gave evidence that Thaw calmly sought the architect and that the killing he witnessed on the roof garden was a premeditated murder.

Jerome has finally abandoned his idea of a lunacy commission and is vigorous for a verdict of murder in the first degree and he made a vain attempt to establish an alibi for Stanford White.

Dr. Carlton F. Flint denied that he knew Evelyn Nesbit.

The case may be argued next week, each side to have a day to sum up.

Bomb Explosion.

Kharkoff, March 13.—Receiving a tip that a number of students had concealed bombs, high explosives and incendiary literature in their lodgings, today the police raided the place and captured a number of the offenders. While they were carting away the explosives a bomb was exploded and six police killed.

Myron A. Relyea, 25 years old, formerly of Albany, N. Y., and for several years a foreman in the Norfolk Knitting Mills, committed suicide in the poolroom in the rear of James E. Prince's saloon in Norfolk yesterday morning. The act was committed 15 minutes after Relyea had telephoned to Edward Camp, superintendent of the Norfolk Knitting Mills, telling him that he intended taking his life.

Engineer J. B. Mikesell, fireman Cantwell, and brakeman J. M. Johns, were drowned early today while their train was crossing a bridge spanning Deer Creek, on the west Penn Railroad near Harmarville Station. A heavy rain had swollen the stream to the proportions of a river. The bridge collapsed under the weight of the train.

Fritz Scheel, the great orchestra conductor, died in Philadelphia at 12:45 o'clock this afternoon. His death was due to pneumonia.

Break in Stocks.

New York, March 13.—With a sudden reversal of form after the strength it has shown for the last two days, the stock maket went to pieces this afternoon and one of the most severe breaks in recent years resulted. The suddenness of the break swept the traders off their feet and prices tumbled from one to ten points in the active list and threw the market into a state of complete demoralization. Coincidentel with the crash came the news from Washington that President Roosevelt had called a special meeting of the Cabinet and that his advisers were rushing to the secret session. The heavy break soon started liquidation in all quarters and the stocks were soon pouring in upon the market in a seemingly endless stream. Nearly one million shares were traded in before noon.

The London and Berlin markets are also demoralized.

Alexandria Gazette.

WEDNESDAY EVENING, MAR. 13, 1907.

He Was the Palm.

Many stories have been told of mean men, such as he who used a wart for a collar button and he whose birthday gift to his son consisted in washing the windows so that the lad might watch the cars go by. This man, however, seems to have won the palm. There was an extremely mean man in New Hampshire who was the proprietor of a hotel. By his direction rules were posted in the hostelry forbidding almost every conceivable privilege to those not guests of the place. There was absolutely no chance for the casual loafer to get newspapers, pens, ink, stationery, etc. There were not even free seats in the office. One day he chanced to observe a chronic loafer gazing at the old clock that hung on the wall. The next day a sign was placed over the clock. It read, "This clock is for the use of the guests of the hotel only."—Success Magazine.

The Joy of Life.

The man who does not feel his heart throb with gratitude every day of his life for being born in the very golden age of the world and who does not feel that he owes a tremendous debt to the past, to all the people who have struggled and striven and sacrificed before him, is not made of the right kind of stuff.—Success Magazine.

Ready to Pose.

He—Why are you wearing that expensive gown at that dinner tonight? It isn't such a swell affair. She—I know it, but I don't feel like talking much, and with this gown on I won't be entirely lost sight of.—Detroit Free Press.

Where She Parted From Paul.

A certain old lady was arguing strongly for woman's rights in the way of preaching when some one attempted to put her down with a text from St. Paul. "Ah," said she, "that's where Paul and I differ!"—Household Words.

Happiness and Hunger.

"My idea of perfect happiness," said the seedy philosopher as he made his fourth round trip to the free lunch counter, "is to be in a position to go into the swellest restaurant, put my hand over the price list of the menu and order what my taste dictates, irrespective of the demurs of a diminished wad."

A Correction.

Bertie—Father, what is an egotist? Father—He is a man who thinks he is smarter than any one else. Mother—My dear, you are scarcely right. The egotist is the man who says that he is smarter than any one else. All men think they are!

Appropriate.

Young Widow (at the animal seller's)—I want a dog. Animal Seller—Yes, madam; white, gray or brindled? Young Widow—No. Black—all black. I am in deep mourning.—Nos Loisirs.

Has Continuous Life.

Venus—And what do you do when not engaged in archery? Cupid—Oh, I'm kept busy rhyming with stupid!—Puck.

He is a fool who cannot be angry, but he is a wise man who will not.—Seneca.

A Humane Appeal.

A humane citizen of Richmond, Ind., Mr. U. D. Williams, 107 West Main St., says: "I appeal to all persons with weak lungs to take Dr. King's New Discovery, the only remedy that has helped me and fully comes up to the proprietor's recommendation." It saves more lives than all other throat and lung remedies put together. Used as a cough cure the world over. Cures asthma, bronchitis, croup, whooping cough, quinsy, hoarseness, and phthsic, stops hemorrhages of the lungs and builds them up. Guaranteed at E. S. Leadbeater & Son's drug store. 50c and $1. Trial bottle free.

Health in Canal Zone.

The high wages paid make it a mighty temptation to our young artisians to join the force of skilled workmen needed to construct the Panama Canal. Many are restrained however by the fear of fevers and malaria. It is the knowing ones—those who have used Electric Bitters, who go there without this fear, well knowing they are safe from malarious influence with Electric Bitters on hand. Cures blood poison too, biliousness, weakness and all stomach, liver and kidney troubles. Guaranteed by E. S. Leadbeater & Sons, druggists, 50c.

ARGO, ARGO, ARGO, ARGO, ARGO, ARGO, ARGO, ARGO, ARGO, ARGO.

Little globules of sunshine that drive the clouds away. DeWitt's Little Early Risers will scatter the gloom of sick headache and biliousness. They do not gripe or sicken. Recommended and sold here by W. F. Creighton & Co., 401 King street.

The News—No Pure Drug Cough Cure Laws would be needed, if all Cough Cures were like Dr. Shoop's Cough Cure is—and has been for 20 years. The National Law now requires that if any poison enter into a cough mixture, it must be printed on the label or package.

For this reason mothers, and others, should insist on having Dr. Shoop's Cough Cure No poison marks on Dr. Shoop's labels—and none in the medicine, else it must by law be on the label. And it's not only safe, but it is said to be by those that know it best, a truly remarkable cough remedy. Take no chance, particularly with your children. Insist on having Dr. Shoop's Cough Cure. Compare carefully the Dr. Shoop package with others and see. No poison marks there! You can always be on the safe side by demanding Dr. Shoop's Cough Cure. Simply refuse to accept any other. Sold by E. S. Leadbeater & Sons, druggists.

COAL AND WOOD.

THERE'S NO COAL

like Aitcheson's coal. Everyone will tell you that it has tested its virtues for either range, furnace or stove. Your coal supply is liable to get short at this season of the year. How about sending us your order—or a sample order for some of our well screened, high grade coal? Once tried you will never use any other.

The American Magazine.

Ida M. Tarbell, who wrote Lincoln and the famous "Story of Rockefeller;" William Allen White, the well-known Kansas editor; F. P. Dunne, creator of "Mr. Dooley"; Ray Stannard Baker and Lincoln Steffens are under the leadership of John S. Phillips, now editor the American Magazine.

Never before has such a brilliant group been gathered together, and they are not only contributing themselves, but are filling the magazine with the very best novels and short stories and great timely articles by other famous writers and beautiful pictures by great artists.

A Great Bargain.

The regular price for the twelve numbers of the American Magazine is $1.20—little enough as it is, but for a limited time you can get the November and December, 1906, numbers, with a full year's subscription for 1907, for a dollar, or

Think of it! Think of the quality of reading you get for $1.00. Think of the quantity—at least two great novels, 96 short stories, 28 poems, 70 timely articles, 800 beautiful pictures, and all for $1.00.

How About Your Winter Reading?
